- Participants will all receive an evaluation form from the trainer of the class if approved to register for the class/s of their choice. The Head Trainer's signature is required before registration can be processed. Circus participants will be placed into the most appropriate classes according to their strength, experience and skill development.
- Mini Acro, Beg Unicycle, all levels of Wire, Beg Combo Circus, and Beg Juggling classes are not required to attend prerequisite evaluation sessions, however they must meet minimum class requirements.
- Registration begins August 23 for all levels. Mini Acro, & T/TH 5:30pm Beg Combo Circus class registration will remain open through January 31 (unless class exceeds maximum capacity). Enrollment for intermediate and advanced classes will close November 30.
- All circus classes have established class size maximums for safety reasons. Please register promptly each month to avoid being "wait-listed". Once enrolled in your class/s, you may pre-register for subsequent months during the 3rd week of each month. If a class exceeds maximum capacity, your name will go on a waiting list. As space becomes available, it will be offered to the first person on the list. We will contact you if your name is next on the list.

EVALUATION PERIODS

Each circus class will hold **periodic evaluations** to track participant progress. Evaluation results are available for parents and participants to review. In addition, there will be **2 formal evaluation periods** during each class session. Participants are evaluated on ability to perform required skills, and strength and endurance are measured in order to progress safely. Anyone interested in joining a class after the first or second evaluation period has passed will need to be evaluated before enrollment in that class can be confirmed.
